

MARKETPLACE ---- the Cairo marketplace (installed already)

BAKR'S BEDROOM --- the cassette tape vendor (installed already --- however, muffle it so that we know we are hearing it from inside an apartment)

CHECKPOINT ----- construction ambience here would work well --- let's go for it!

WAFIQ ONE ----- we need kitchen sounds going on here, including tea kettles and sizzling ---- we DO NOT want outside ambience noise

FENCE ----- here is what we need for this ---- we need helicopters, trucks, and airplanes, making it sound like a MILITARY zone

WAFIQ TWO ----- again, no ambience and no wind ----- we can introduce the cassette vendor marketplace when she is kicked outside

CAR STABBING ----- farm ambience

TERRORIST HQ ----- dripping water ---- let's capture this in the foley session tomorrow and make it echo

BEACH ARRIVAL ----- cars running by and traffic ---- talk radio (if possible)

DAREEN --- one of the marketplace ambiences, but muffled, so its coming from outside

BEACH ----- beach goer ambience

LITTLE RABIA ---- birds chirping ---- this one is already installed
